## CONNECTICUT TECHNICAL HIGH SCHOOL SYSTEM'S STUDENT WORKFORCE AUTOMOTIVE SHOPS ARE OPEN TO THE PUBLIC.

They offer a wide range of automotive services at our technical high schools. These shops handle everything from oil changes and tire rotation to brake work, collision repair and diesel and heavy duty equipment repair. Each automotive shop, collision repair shop or diesel shop features state-of-the-art technology and is run entirely by the junior and senior Automotive students with assistance from the sophomore class and supervision from their instructors. The students handle making appointments with customers and the actual work itself. All services are offered weekdays by appointment.

These shops are an integral part of our students' training. When you choose to have your car or truck serviced at one of our school's shops, you're providing students with invaluable, real-world experience. Not to mention, you'll receive high quality service at reasonable prices that will keep you coming back to us for your automotive needs.

**For more information** on the Connecticut Technical High School System's Student Workforce departments, including the Automotive, Collision Repair and Diesel shops please visit [cttech.org/studentworkforce](http://cttech.org/studentworkforce).
