CTHSS **STUDENT**
WORKFORCE
REAL JOBS FOR REAL CUSTOMERS IN CT.

CONNECTICUT TECHNICAL HIGH SCHOOL SYSTEM'S **STUDENT WORKFORCE SOUND PRODUCTION TECHNOLOGY STUDIO** IS OPEN TO THE PUBLIC.

Our Sound Production Technology team at Prince Tech offers a wide range of recording, mixing and post-production services for all forms of musical art. In addition, Prince Tech's recording studio is available during school hours for any and all of your recording needs. Featuring state-of-the-art equipment, the studio is run entirely by the junior and senior Sound Production Technology students with assistance from the sophomore class and supervision from their instructors. The students handle every project from start to finish.

The studio is an integral part of our Sound Production Technology training. When you choose to have your project done here, you're providing students with invaluable, real-world experience. Not to mention, you'll receive high quality service at reasonable prices that will keep you coming back to us for all of your sound production and recording needs.

In addition to the recording studio, Sound Production Technology also offers in-house services including live sound reinforcement, live audio recording, staging, stage lighting, video projection, video recording and full service event production management.

For more information on the Connecticut Technical High School System's Student Workforce departments, including sound production technology, please visit cttech.org/studentworkforce.
