

PowerTeacher iPad App Setup

- 1.) Go to the App Store and Search for PowerTeacher. Download it and then open the app.
- 2.) Click **Yes** if asked to search for a District Server. If asked to use Current Location, click “Don’t Allow.”
- 3.) Use **06457** as the zip code regardless of your school (zip code is based on Central office location).

- 4.) Select **Connecticut Technical High School System** from the list that appears.
- 5.) If you are not able to find the **Connecticut Technical High School System** by zip code, you can manually find our school system by clicking on **Settings**. Once in this tab, you will need to enter our server address and port.
 - a. Server Address area: **powerschool.cthss.cen.ct.gov** (see print screen below).
 - b. Port Number: **80** (see print screen below).
 - c. Be sure that SSL Enabled is set to off (see print screen below).

5.) Click on the Login button at the top after putting Server Address and port number in.

6.) Type in the username and password you use when signing into PowerTeacher. Be sure to select your school via the dropdown menu.

7.) Press Login. You are now ready to use the app.
